Sir:

In reply to the September 10, 2008 Restriction Requirement, Applicants provisionally
elect Group I, claims 1 and 5, with traverse.

National stage applications filed under 35 U.S.C. §371 are subject to unity of invention
practice as set forth in PCT Rule 13, and are not subject to U.S. restriction practice. *See* MPEP
§1893.03(d). PCT Rule 13.1 provides that an "international application shall relate to one
invention only or to a group of inventions so linked as to form a single general inventive
concept."

A lack of unity of invention may be apparent "*a priori*," that is, before considering the
claims in relation to any prior art, or may only become apparent "*a posteriori*," that is, after
taking the prior art into consideration. *See* MPEP §1850(II). Lack of *a priori* unity of invention
only exists if there is no subject matter common to all claims. If there is subject matter common
to all the claims, a lack of unity of invention may only be established *a posteriori* by showing that
the common subject matter does not define a contribution over the prior art.
